

Drill Bit Holder for SKADIS

Description

This drill bit holder can hold drill bits from 1 mm to 13 mm in 0.5 mm increments in your **SKADIS board from IKEA**.

→ Whole number drills are held in the front row and corresponding half numbers in the back row.

There is also a small front compartment for storing accessories or individual drill bits.

To avoid waste, the holder is made of two parts that need to be glued together (see pictures).

This is a list of all my SKADIS holders: <https://makerworld.com/de/collections/10923314-holder-for-ikea-skadis>
