## NOTICE TO READERS

Since its inception, HUSTLER has responded to its readers, not the advertisers. Because of this unique editorial policy, we don't have the advertising support enjoyed by our competitors. As a result, it has been necessary to raise our price 50¢ per copy in both Dec. and Jan. in order to provide you with these super Holiday Issues including our life-size centerfold. This is a bold step never before taken by any publisher, and could very well determine HUSTLER's success or failure, but HUSTLER is your magazine, it always has been and always will be. For this reason, I leave its destiny in your hands. L.F.

## WE DON'T NEED A COVER GIRL TO SELL THIS MAGAZINE.

I want to give you \$1 million. On the reverse side of this cover, you will find the details of the Larry Flynt Million-Dollar Giveaway. This is my way of rewarding my readers for helping us through a rocky period. Back in December 1975, I was forced to raise HUSTLER's cover price. We did not have the advertising support enjoyed by our competitors and had no idea whether or not we could continue to survive. But we knew one thing: We did not want to sell out to the advertisers. HUSTLER readers came through at that time, as they always have. We grew and prospered. I've always wanted to thank my readers. At first I thought I could do this by offering money to the government to effect social change. Last year I tried to give \$1 million to President Jimmy Carter to reinstitute the Commission on Obscenity and Pornography so we could get at the truth behind erotic materials. But my money was turned down. Later, I offered Congress more than \$1 million to initiate a study on child abuse. So far my offer has been ignored. Consequently, I decided to give \$1 million to HUSTLER readers, who will be selected at random. I know many of you are confused because of what you have read about HUSTLER's changing editorial format. Nothing has changed, except that the publisher has become a better man and will respond more effectively to the readers' difficulties in dealing with society's sexual and spiritual ills. I will remain responsive to your needs, because without you we would never be in this position. No one should think for a second that HUSTLER Magazine is going to turn its back on the people who made it successful.
